

# Capable Communities Planning Document

How prepared would your neighbourhood be to survive and treat injured people without power, water, mobile phone signals, and the supermarket? Who is likely to need immediate assistance? What skills and equipment are already available in your neighbourhood?

You can use this document to help plan with the people in your neighbourhood, to make your community more capable in the event of an emergency or disaster. Once you're ready, finalise your plan by filling out the 'Our Capable Communities Emergency Plan' and sharing a copy with everyone in your neighbourhood.

## What are the best ways for us to keep in touch as a community?

Phone      Email      Social Media Group      Letterbox Messages      Regular Get Togethers      Other: \_\_\_\_\_

## Our Neighbourhood Checklist

Resilient communities stay well-connected, look after each other, share skills and resources and therefore recover from incidents and disasters quicker.

### Our group wants to:

- |                              |   |                                     |  |
|------------------------------|---|-------------------------------------|--|
| Welcome new neighbours       | Have a street evacuation plan in case of flood, fire, earthquake or tsunami | Share tools and equipment           | Fundraise for emergency equipment i.e. defibrillator |
| Get to know each other       |   | Share skills and knowledge          |  |
| Offer help when it is needed | Organise regular gatherings   | Maintain an up-to-date contact list | Setup neighbourhood resources i.e. a pātaka kai      |

## What incidents do you need to plan for?

Fire      Earthquake      Tsunami      Flood      Police/Crime      Health Outbreak      Other: \_\_\_\_\_
